

Day of Impact 2022

September 23 | DayOfImpact.org

Providing kids with access to high-quality early care and education is essential to their growth and development.

Every day, Early Learning Indiana's nonprofit, high-quality Day Early Learning centers help more than 1,000 children develop the essential skills they need to be successful in kindergarten and beyond.

Donations made toward this Day of Impact event help address immediate needs in our Day Early Learning centers. Common projects include classroom renovations, teachers' lounge upgrades and playground restorations. Donations go directly toward these projects for the children at our centers.

This is your moment to give.
